Profile

My name is Eli van Herwaarden. I am a 3rd year student of the Netherlands Film Academy. I`m passionate about visual effects and all it`s technical aspects in which I can contribute in the art of filmmaking.

I work good as a team player possessing: strong organisational skills, effective communication, determination and problem-solving abilities. As a result, I can work under pressure and deliver projects on time. In addition, I am passionate about self-learning new parts of programs and technologies in the ever evolving world of vfx. I`m always looking to take on a challenge and bring my skills to the next level.
